Jesus appeared to his disciples twice. The first time was on the evening after he rose from the dead. The second was a week later. Now the Lord appeared again, and gave his friends quite a surprise!

Draw and colour what happened.

Six of Jesus' friends went out fishing in a boat on the Sea of Galilee.

Having fished all night and caught nothing, a man on the shore told them to put out their net on the right side of the boat. Draw their huge netful of fish!

Peter realised the man was Jesus. He jumped into the sea and headed for the shore! Draw Peter as he lands in the water - splashes and all!

When they'd landed the fish, the men discovered that Jesus already had fish - and that he'd cooked it on a fire for their breakfast. Jesus had bread there for them too. Draw what they ate.

Rearrange the words to explain why Peter had a problem.

the had Lord Peter betrayed

Peter had to learn about forgiveness.

What question did Jesus ask three times?

What was Peter's answer each time?

Jesus gave Peter a job to do. He was to feed God's sheep. That means that he was to teach God's people about Jesus. That was good news for Peter.

Put the right words in the spaces to find good news for you.

Whatever _____ you have committed, ask _____ to _____ you. He will, and he'll _____ you a _____ to do too.

Jesus give job forgive sins
